The Four Steps to the Epiphany

*Successful Strategies for
Products that Win*

Steven Gary Blank

story one

<http://software.risventures.com/2010/05/16/spisok-literatury>

1. Customer & Problem Hypothesis

2. Talk to Earlyvangelists to validate

3. Product presentation: MVP

4. Validate & change MVP, iterate CPS8. Prepare to sell mainstream customers

5. Sell to Earlyvangelists

6. Sell to channel partners

7. Verify roadmap, develop positioning

9. Create demand

10. Define company mission. Build functional departments to support growth

11. Write four steps to E.Piphany ☺

Steven Gary Blank

Advice

- Гипотеза = Customer Discovery
 - Don't sell. Design for the few, not for the many
 - Выявить небольшое количество earlyvangelists
 - Подтвердить что видение решения не галлюцинация
- Тестирование = Customer Validation
 - Начните с прямых продаж: sell specs & slides
 - Low sales skills -> hire sales closer (VP Sales kills startup ;))
 - Validate sales roadmap, sell to channel partners
- Накачка = Customer Creation
 - Подготовьте продукт для продажи в основной рынок
 - Масштабируйте машину продаж
- Жизнь = Company Building
 - Постройте формальную структуру в компании -> описание должностей, миссия, отделы, etc..

story two

<http://software.risventures.com/2010/05/16/spisok-literatury>

1. Problem Hypothesis First 😊

4. Iterate: product – actions

2. Build MVP. Test customer actions

5. Build marketing channels

3. Groom MVP. Build customer funnel

6. Prepare to sell mainstream customers (education, product delivery partners, ..)

7. Scale marketing machine. Define company mission

8. Write Getting Real 😊

Advice

- Making software decisions based on the real thing instead of abstract notions
 - A functional spec is make-believe, an illusion of agreement, while an actual web page is reality
 - Build, launch, and tweak. Then rinse and repeat
 - Rapid prototyping. Simple, focused software. Less is more.
- Build software for yourself 😊
 - Solving your own problems -> passion is key
 - Scope down. It's better to make half a product than a half-assed product (more on this later)
 - Explicitly define the one-point vision for your app. Ignore Details Early On
 - A team of three for version 1.0
- Pick a fight
 - Our products do less than the competition – intentionally
 - Lean as a way to compete
- Find the core market for your application and focus solely on them
 - Scale Later
- Make features work hard to be implemented
 - We listen but don't act. Just read feature requests and then throw them away
 - Let your customers remind you what's important

Veeam FastSCP vSphere Ready

More than 6 times faster than SCP

FastSCP provides a fast, secure and easy way to manage files and bulk copy VMs across your VMware ESX environment.

Veeam FastSCP is the de facto standard for ESX file management, now with support for ESXi. FastSCP allows users to copy files from ESX to Windows, Windows to ESX, or directly ESX to ESX. FastSCP is the simplest and fastest way to move VMs and templates between datastores or to deliver ISO files to ESX Servers.

NEW: Update 3.0.3 includes full VMware vSphere 4.1 support

Next Steps

[Download free product](#)

[Live Demo](#)

with a Systems Engineer

[Download](#)

[Datasheet](#)

1. Start as 37 signals 😊
Fast SCP becomes huge success

2. Collect Earlyvangelist feedback

3. Understand customer problem in-depth

4. Release level-3 products
Sell to Earlyvangelists

5. Continue as E.Piphany 😊

6. Become #1 virtual backup vendor 😊

VEEAM ВЫВОДЫ

1. Найти элегантное решение сложной проблемы
2. Бесплатно и полезно → известность и WoM
3. Более глубокое понимание задач и ЦА → расширение продуктовой линейки платными продуктами
4. Начало продаж, проверка платных продуктов, масштабирование продаж
